

**Practice-oriented
load-bearing capacities.
Safe working.
Certified and robust design.**

The new PEP Alpha Slab Prop fulfills Load Class D according to DIN EN 1065. The D-300 and D-350 prop types cover 80% of the usual range of applications for tubular steel tube props. The maximum load-bearing capacity is 36.1 kN and thus lies above the European standard. All parts of the PEP Alpha Slab Prop are hot-dip galvanized. By means of the hand safety clearance and anti-dropout safeguard on the inner tube, safe working is guaranteed at all times.

PEP Alpha D-300

Extension length	1.80 m-3.00 m
Weight	15.9 kg
Load-bearing capacity	36.1 kN

PEP Alpha D-350

Extension length	2.00 m-3.50 m
Weight	19.1 kg
Load-bearing capacity	36.1 kN
